

Tricks 4 Treats

Pet Dog Training & Fun Agility

Jo Conibere MAPDT 00953
Paul Conibere MAPDT 01039

Receiving this information means you have completed the Novice and/or the Intermediate Courses with us, and obviously reached a stage where you are ready to further your dogs skills.

As you might have been made aware, the Advanced Course takes on a new level of training that is different from what you have become accustomed to. We will of course use all the skills that you have taught your dogs to date.

Over an 8-week period at an hour per week we will incorporate the following exercises

- Emergency wait/down
- Out of sight wait/stay
- Control with distraction
- New fun tricks - taught in class altogether
- Fun agility
- Fun distracted exercises with all dogs working together
- Various exercises that include close walking with dogs off lead
- Plus much more...

We will first look at how the dogs' interact with each other; this will be done via a small exercise with all dogs' working together. We will take our time to see who is likely to distract other dogs' and work our way through any difficulties in order that you are able to maintain control at all times. All dogs' are worked off lead at this level of training.

It is important, as always, to remain consistent with any training that you undertake, the level of success you will enjoy will depend on how much time and effort has been undertaken.

Although food is always useful, at this level of training we will not always rely on the food to reward the dogs', but instead verbally motivate the dogs' and offer praise in order that they do not expect a food reward each time.

We very much look forward to helping you train your dogs' to a higher standard, this course is great fun, we're sure you will enjoy yourselves, as will your dogs'!

We hope to see you soon.

All the best
